

# STEEVE PITIS

## LEAD JS FULL STACK DEVELOPER

github.com/zecaptus  
linkedin.com/in/steeve-pitis

Villiers sur Orge (91), FR

06 12 87 60 37

steeve.pitis@gmail.com

### TECHNICAL SKILLS

**JAVASCRIPT** (+15 years in full JS), **React** (+/- 8 years), Typescript, Redux, Angular, ES7, Express, Koa, MongoDB, Sass, Git, GraphQL, React Native

### WORK EXPERIENCES

LEAD DEVELOPER REACTJS, **INFOPRO DIGITAL** (FREELANCE) Jan 2022 - Dec 2023 - Antony, FR

#### MAIN - IPDSTREAM

##### Mission:

Creating a webinar tool around aws chime technology.

- Replace webcam background with custom image, blur or color
- Raise hand
- Voice focus
- Creation of a synchronized video player for "watch party" viewing
- Share screen or/and document
- Handle studio feed (RTMP)
- Creation of a chat private & public

##### Challenge & Learning:

- API video / API Audio / Canvas / AWS chime (and a little of AWS DynamoDB)
- Handle CPU/GPU load during video AI transformation
- Monitoring bandwidth in realtime

##### Technical Stack:

ReactJS, NestJS, NextJS, Socket.io, AWS Chime, Typescript, MaterialUI

##### Team: (~SCRUM)

1PM, 1 PO, 2 Fullstack dev

#### SIDE - WEBIKEO (~2 MONTHS)

##### Mission:

Rework webikeo.fr.

After finalizing the React/Next migration, the Webikeo team had performance issues with the site. I helped and guided the team to resolve some of the issues.

##### Challenge & Learning:

- NextJS v14 (Server Component / Server Action)
- A guide to rework a rework :D

##### Technical Stack:

ReactJS, NextJS, Typescript, MaterialUI, Tailwind

##### Team:

1PM, 1 PO, 5 Fullstack dev

## SIDE - GLOBAL (~2 WEEKS)

### Mission:

Creating a fully customizable keycloak theme with keycloakify

### Technical Stack:

ReactJS, keycloakify

### Team:

Me

## SENIOR DEVELOPER REACTJS, GIVAUDAN (FREELANCE) Dec 2020 - Dec 2021 - Paris, FR

### Mission:

Rework and add features to the existing smart submission platform. Smart submission is a tool that aim to help (/ replace) the noze (perfumer) with AI.

Agile teacher

### Technical Stack:

ReactJS, MaterialUI, Django (Python)

### Team: (~SCRUM)

1 PO, 2 Data Scientist, 1 Dev front (me), 1 dev Back

## LEAD SOFTWARE ENGINEER, MANOMANO Sept 2017 - Feb 2021 - Paris, FR

### MAIN - LEAD FRONT

#### Mission:

- Helping junior progress
- Organize and animate meetup
- Choose and drive front stack and strategy
- Front-end interviews (+100)
- React referent

#### Challenge & Learning:

I've learned a lot by teaching javascript to others. Even from doing interviews !

#### Technical Stack:

ReactJS, Vanilla JS, Symfony (PHP)

#### Team:

We were 2 leads front at first, then 5.

### BENGAL - LEAD FULLSTACK JS

#### Mission:

Creation of a chat facility to put our customers in touch with our customer service or community experts.

- Chat Queuing
- Qualify the request to adress the chat to an expert or to customer service
- Handle 3000+ conversations a day
- Minimize code as much as possible (high unique visitor a day)
- Scaling our microservices

#### Challenge & Learning:

The main challenge was the load, rework our architecture to scale.

#### Technical Stack:

ReactJS, KoaJS, Swagger, MySQL, ElasticSearch, DocumentDB, AWS ElasticBeanStalk, Socket.IO, RabbitMQ

#### Team: ( scrum from zero to hero )

2 leads (me), 1 senior, 2/3 juniors, 1po (all fullstack)  
(cross team: 1pm, 1ux/ui designer, 1 qa, 1 sre)

## UI ENGINEER, ANAPLAN Feb 2016 - Jul 2017 - Paris, FR

### Mission:

Develop predictive and analytics tools in anaplan

### Technical Stack:

ReactJS, DoJo

### Challenge & Learning:

I was lucky enough to learn React here from the React developers.

**Team:** (SCRUM)

1 PO, 1 PM, 2 Data Scientists, 1 Dev front (me)

CTO, **WHATABOON** Jan 2015 - Jan 2019 - Paris, FR

**Mission:**

- Startup creation
- Develop the MVP
- Dev interviews
- Press interviews
- Sleepless nights
- Weird deadlines

**Technical Stack:**

MEAN.JS (MongoDB / ExpressJS / AngularJS / Node.JS), Socket.IO

**Challenge & Learning:**

There's no better way to learn!

I think I really changed my mindset during this period.

"The power of NO" !

**Team:**

2 CEO, 1 CTO (Me), 1 Dev fullstack, 2 intern, 1 DA, 3 sales

SOFTWARE ENGINEER, **CEGEDIM SOFTWARE** Feb 2012 - Jan 2015 - Boulogne-Billancourt, FR

**Mission:**

Add features to SmartRH software

Creation of a GTA Tools (Time and absence management)

**Technical Stack:**

Jquery

FREELANCE Jul 2010 - Feb 2012

- Fullstack developer, using PHP, Vanilla JS.

SOFTWARE ENGINEER, **ISCOPE** Aug 2008 - Jul 2010 - Paris, FR

- Front End developer, using PrototypeJS, ScriptAculo.us.

PHP DEVELOPER, **PINKDEV** Aug 2006 - June 2008 - Montigny le bretonneux, FR

- Fullstack developer, using PHP, Vanilla JS.
