WORK EXPERIENCES

Lead Developer ReactJS, InfoPro Digital (Freelance) *Jan 2022 - Dec 2023 - Antony, FR*
  - Lead Developer ReactJS, using ReactJS, Redux, NextJS, AWS Chime, Typescript
  - **IPD Stream** - Main mission
    - Creating of a webinar tool around aws chime technology.
    - The hardest thing was to pay attention to the CPU/GPU load when using a video transformation (such as blur or background replacement), and monitoring bandwidth in real time.
    - {team size: 2}
  - **Webikeo** - ~2 months
    - Help to finalize the site's rework to ReactJS.
    - {team size: 5}
  - **infopro** - ~2 weeks
    - Creating a fully customizable keycloak theme with keycloakify
    - {team size: 1}

Senior Developer ReactJS, Givaudan (Freelance) *Dec 2020 - Dec 2021 - Paris, FR*
  - Senior Developer ReactJS, using ReactJS, d3.js, Redux, Typescript
  - Rework and add features to the existing smart submission platform.
  - Learn Python/Django to help backend teammate.
  - Agile teacher.
  - {team size: 3}

Lead Software Engineer, Manomano *Sept 2017 - Feb 2021 - Paris, FR*
  - Lead Fullstack JS developer, using Node.js, Koa, Socket.io, React, Flow, Sass, Redis, ElasticSearch, MySql, AWS.
  - Creation of a chat facility to put our customers in touch with our customer service or community experts.
  - The most complicated thing was to scale our servers to respond correctly to over 3,000 conversations a day and to have the lightest possible front-end code.
  - Set up some javascript training / meetup within the company.
  - React referent within the company.
  - Guarantor of the code quality within the team.
  - {team size: 6-8}

UI Engineer, Anaplan *Feb 2016 - Jul 2017 - Paris, FR*
  - Front End developer, using React, Dojo.
  - In the predictive and advanced analytics, I've learned some basics about Machine Learning.

CTO, Whataboon *Jan 2015 - Jan 2019 - Paris, FR*
  - Develop Whatabon, using MEAN Stack (MongoDB, ExpressJS, AngularJS, NodeJS), mangopay.
  - I've learned a lot about startup (needs, marketing, investors, ...)

Software Engineer, Cegedim Software *Feb 2012 - Jan 2015 - Boulogne-Billancourt, FR*
  - Front End developer, using JQuery.

Freelance *Jul 2010 - Feb 2012*
  - Fullstack developer, using PHP, Vanilla JS.

Software Engineer, Iscope *Aug 2008 - Jul 2010 - Boulogne-Billancourt, FR*
  - Front End developer, using PrototypeJS, ScriptAculo.us.

PHP Developer *Aug 2006 - June 2008 - PinkDev*
  - Fullstack developer, using PHP, Vanilla JS.

SIDE PROJECTS

  - **whatabon.com** no more maintained.

  - **unicornprice.com** Price drop alert mobile application. ReactNative, MySQL, RabbitMQ, AWS, RethinkDB, Puppeteer, NodeJS.
